

Kassandra Hoose, Purchasing Manager at Constant Aviation

Description of my career at Constant Aviation: "While attending Kent State for Aviation Management, it was apparent that I was in a male dominated industry. Constant Aviation had a position posted, I applied and was interviewed by 2 very successful women. I left the interview feeling incredibly empowered and motivated to become a part of this company. I enjoy the people I work with, the culture of the company and the ever changing fast-paced industry. There has been significant growth each year I have been with the company and I am honored to be a part of it."

My Advice: "There is so much more to learn than what you have been taught and exposed to in school. Be open minded to all of the different aspects in aviation such as interiors, parts, and commercial vs. corporate."
